DCWC Community Health Improvement Program

The Darke County Wellness Challenge Community Health Improvement Program is a funding opportunity available to entities in Darke County whose aim is to improve the health of our community. Community groups, healthcare entities, social services, local businesses, and other local organizations with a plan to improve community health may apply for funding in the amount of \$1,000.00 for their project or program.

Examples of fundable initiatives:

- Daily Mile after school program facilitated by Darke County School System
- First responders looking to purchase exercise equipment for their facility
- Community group funding a park to improve walkability and green space access
- City planners adding signage to frequently walked areas
- Darke County Parks project aimed at improving the built environment

If you think your organization might be eligible to apply for the DCWC Community Health Improvement Program, please fill out the form on the next page.

For questions about the program, eligibility, or other concerns, please contact DCWC representative Jordan Francis at 937.569.6409 or dcwellnesschallenge@gmail.com
